

**SUMMER VILLAGE OF CRYSTAL SPRINGS**  
**POLICY #31-2021**

**SUBJECT: Hot Tub / Pool Draining Policy**

**DEPARTMENT: Council**

**ADOPTED AND APPROVED BY COUNCIL: December 9, 2021**

**RESOLUTION: RES. NO: 2021-254**

---

**PURPOSE:**

To outline the process for residents to use when draining a hot tub or pool.

**ISSUE:**

The Wastewater Utility Bylaw # 254 prohibits the draining of any hot tub or pool into the Wastewater System. Residents need to be informed of the appropriate practice to use when draining their pool or hot tub.

**PROCEDURE:**

Residents are required to follow these steps when emptying their pool or hot tub.

1. Shut of any inlet piping or heating units.
2. Allow the pool or hot tub to sit with the lid open for a minimum of 72 hours to allow the chlorine or other chemicals to evaporate.
3. Drain the pool or tub into an area that has trees, shrubs and other plants that can absorb the water and prevent any of the water from flowing directly into the lake.
